About Our Management

Our Management traces its journey back to **1999**, with the establishment of **Ashok Textile Mills -Spinning Unit**. Over the years, the Management has pursued a strategy of steady and phased growth, expanding its operations into **sizing and weaving**, which continue to operate successfully.

In **2017**, the Management further diversified its operations by establishing its **Made-ups Division**, engaged in the manufacture and export of high-quality, export-grade textile products. This expansion marked another significant milestone in the Management's evolution and strengthened its presence across the textile value chain with **100% Green Power Unit** (Solar Plant & Windmill)

During the same year, the Management established **Ashok Construction**, a dedicated division focused on **public works, highways and rural development projects**, including projects undertaken for the **National Highways Authority of India (NHAI)**. In addition to its infrastructure portfolio, Ashok Construction has successfully executed a diverse range of **private building construction projects**, delivering civil and infrastructure works with a strong emphasis on quality, efficiency and timely execution.

Through **Ashok Natural Farms**, the Management is engaged in **egg production**, with its products supplied to both domestic and international markets. The Management also operates a dedicated **native cattle conservation programme**, maintaining more than **200 native (desi) cows** for milk production. In line with its commitment to sustainable agricultural practices, the Management follows **natural farming methods** and manufactures and markets a range of value-added natural products.

The Management's subsidiary, **Lakshmi Agencies**, operates as an **authorised dealer of Indian Oil Corporation**, serving customers in the foothill region of **Kollihills**.

Through its **Ashok Ready Mix Concrete (RMC) Division**, the Management manufactures and supplies **high-quality ready-mix concrete** to contractors, builders and engineering professionals across **Namakkal, Salem and Trichy**. Supported by dedicated RMC

infrastructure and logistics capabilities, the division is committed to ensuring consistent product quality, reliable service and timely delivery to project sites.

Education & Institutional Development

The education sector by partner of the management of **Kongunadu Educational Institutions, Thottiyam, Tiruchirappalli**, comprising **Kongunadu College of Engineering and Technology, Kongunadu Polytechnic College, and Kongunadu College of Education**.

Today, these institutions collectively serve approximately **6,000 students**, reflecting the Management's long-standing commitment to **advancing education, fostering technical and professional skills, and creating opportunities for the next generation**. Through its educational institutions, the Management continues to contribute to **human capital development and the creation of industry-ready talent**, reinforcing its broader commitment to sustainable social and institutional development.

As part of its commitment to **corporate social responsibility and community development**, the Management actively undertakes a range of initiatives aimed at creating sustainable social impact. These include **tree plantation drives, desilting and restoration of lakes and ponds, renovation of government school buildings, and other community welfare initiatives**.

Our Journey of Diversification

From its beginnings in **textile manufacturing in 1999**, the Management has progressively diversified into **infrastructure and construction, ready-mix concrete, agriculture, energy retail, education and community development**. This journey reflects the Management's commitment to sustainable growth, operational excellence and long-term value creation for its stakeholders.
